PROFESSIONAL EXPERIENCE

Trigent Software Inc	Bengaluru, India (Remote)
Associate Technical Leader	Apr 2026 – Present
- Lead technical delivery across multiple full stack modules, from solution design to production release. - Drive sprint planning, code reviews and engineering standards to keep delivery predictable and quality high. - Mentor and guide developers, aligning technical decisions with client and business priorities.	
Module Lead	Apr 2025 – Mar 2026
- Owned end-to-end delivery of key modules across the front end and back end. - Coordinated module planning, task allocation and quality checks with the development team.	
Senior Software Engineer	Jul 2024 – Mar 2025
- Delivered full stack features for client applications with a focus on quality, performance and maintainability. - Honoured with the Sparkler Award and a Certificate of Appreciation for outstanding, consistent delivery.	
Cygnnet Digital	Ahmedabad, India
Senior Software Engineer	Jan 2024 – Jun 2024
- Contributed to software and product design decisions for client applications. - Mentored junior developers through code reviews, pair programming and technical guidance.	

Software Engineer

Sep 2021 – Dec 2023

- Delivered full stack features end to end, from REST API and database design to responsive, production-ready UI.
- Built modern, component-driven interfaces with Tailwind CSS and reusable UI patterns.

Simform Solutions Pvt Ltd

Ahmedabad, India

Software Engineer

Apr 2021 – May 2021

- Contributed to full stack JavaScript development on client projects.

Solution Analysts Pvt Ltd

Ahmedabad, India

Junior Software Engineer

Jun 2019 – Mar 2021

- Built and maintained features for client web applications across the full stack.
- Supported and mentored newer developers joining the team.

KEY PROJECTS

Client names withheld in line with confidentiality agreements.

International Courier Management Platform

Logistics

- Architected the Node.js / Express.js backend and shipment workflows for customers, agents and admins.
- Built role-based access control, secure RESTful APIs and scheduled cron jobs for data processing.

Carbon Footprint Tracking Platform

Sustainability

- Implemented the carbon-emission calculation engine used to measure and report environmental impact.
- Integrated social login with RBAC, a Google Places distance calculator and a payment gateway.

Real Estate Marketplace

Real Estate

- Developed property listing, purchase and sale workflows; improved stability and page-load performance.

Multilingual Café Ordering Admin Platform

Food & Beverage

- Built multilingual (i18n) admin modules and Google Maps-based real-time location tracking for pickups.

Contactless Restaurant Ordering System

Restaurant Tech

- Built QR-code table-side ordering with menu categorisation, a cart module and mobile-first UI.

EDUCATION

Bachelor of Engineering (B.E.), Information Technology

Aug 2015 – Jun 2018

L.J. Institute of Engineering & Technology, Ahmedabad

CGPA: 8.24 / 10

Diploma, Information Technology

May 2012 – Jul 2015

Government Polytechnic, Ahmedabad

CGPA: 8.16 / 10
